

# mini-pro

## Quick Start

## Install Your Product

Connect mini-pro to power plug by the link cable.

Connect PC,laptop,camera or DVD to mini-pro' s HDMI IN port via HDMI cable.

Connect mini-pro HDMI OUT port to monitor to HDMI preview the input and output.

Connect the microphone to mini-pro' s Audio IN port and connect the speaker or earphone to Audio OUT port.

Connect the laptop to mini-pro' s USB 3.0 port via USB cable, and mini-pro will be captured as a webcam source.

Connect mini-pro' s LAN port to laptop via CAT6 cable, and control mini-pro on software.

Connect mini-pro' s USB 3.0 port to your laptop to stream and record.

Turn on the Power button on the rear panel,the device will enter to the boot interface within 10S.

## Touch Screen

Push corresponding menu icon and the 2-inch LCD screen will enter corresponding interface.

Touch screen also has some simple **swipe shortcut** functions.

## Switch Source

mini-pro is default 0.5S Fast Fade mode, by pushing ①②③④signal buttons, 4 input signals can be switched in fast fade mode.

When four signal sources plug in, the lights on the signal source buttons will appear in four states:

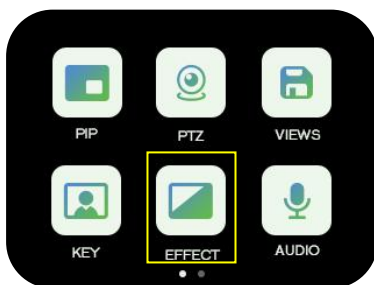

**Steady green:** The signal is recognized and no operation is performed;

**Flashing green:** The currently selected signal is ready to be switched;

**Steady red:** The current signal is in PGM output;

**Unlit:** No signal source is connected or the resolution of the signal source connected is not accepted.

## Switch Effect Setting

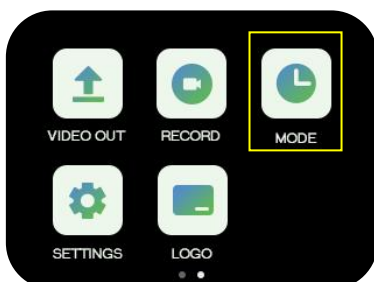

Touch **【EFFECT】** icon to enter the menu.

Select the effect, the root directory icon will be replaced with the last selected icon.

## Switch Mode Setting

Touch **【MODE】** icon to enter the menu.

You can select Fast or T-BAR and set the duration time

## Video Output

Push button 【M】 to return to main menu and find 【VIDEO OUT】 to set parameters for the HDMI and USB output.

HDMI output defaults multi-screen preview, USB output defaults PGM.

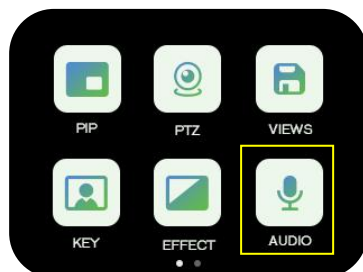

HDMI/USB output can be switched to PVW, PGM, TP or the 4 input content in field application.

Touch 【M】 again to preview 4 inputs.

## Audio Setting

Tap【Audio】to enter the sound setting interface.

The volume can be adjusted by sliding the bar, and you can touch 【HDMI1】 to make detail setting.

Turn on【MIX】to always add audio to PGM, Turn on 【AFV】 , the audio follows the video switch to perform a soft gradual transition when video is switched.

If the sound and the video are not synchronous, increase or reduce the Delay value under AFV.(External and HDMI input audio support delay up to 160ms)

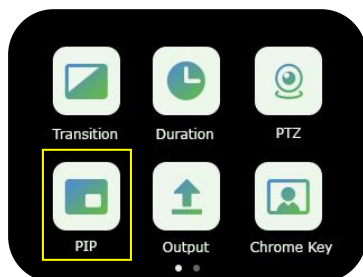

When the touch screen is in the main interface/preview interface/Shortcut interface, the PGM audio volume can be adjusted by the toggle.

Press button 【S】 to enter Shortcut interface, adjust the volume by sliding the bar.

## PIP

Touch 【M】 button to return the main menu, select 【PIP】 icon.
