

The DX8 whole machine adopts plug-in module design, supports hot-swappable input and output cards, dual power supply hot backup, and can be flexibly configured to meet the application needs of various signal distribution and output backup on-site. It is a primary and standby control switching device that integrates functions such as signal input distribution, output distribution, power-off pass-through, and primary and standby switching. It escorts display applications in the field of broadcast-level multi-function conferences.

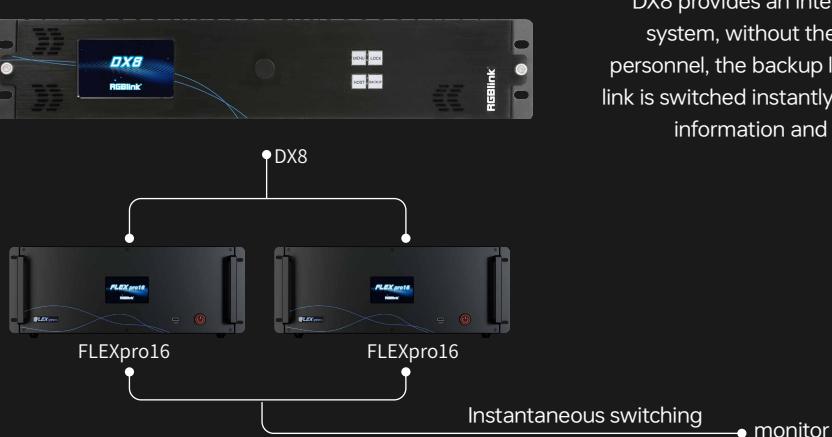

Signal distribution

DX8 supports all input and output board backup functions, supports HDMI 1.3 and 3G SDI to realize 1 signal and provide 2 backup signals, and adapts the independent primary and standby outputs and does signal distribution.

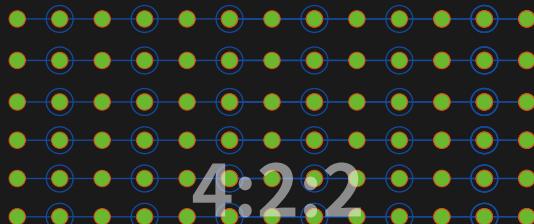

Signal backup

DX8 provides an intelligent video signal backup and transmission system, without the intervention of operation and maintenance personnel, the backup link automatically takes over, and the system link is switched instantly to ensure the stable transmission of system information and efficiently ensure the stability of the system.

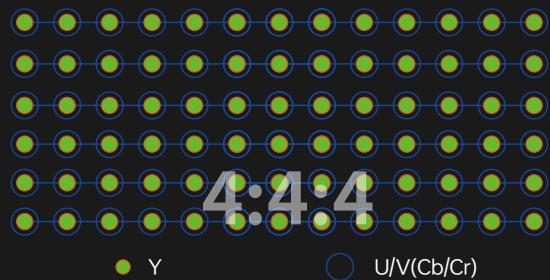

Dual power backup

DX8 reliability redundant dual power supply design, to ensure the safety of power supply, to ensure the stable operation of on-site activities.

4:4:4

In the signal acquisition process, HDMI1.3 supports 4:4:4 algorithm and 12bit color depth processing, SDI supports 4:2:2 and 10bit processing, the image color is complete, the picture is clear and delicate.

● Y

○ U/V(Cb/Cr)

Card-in design

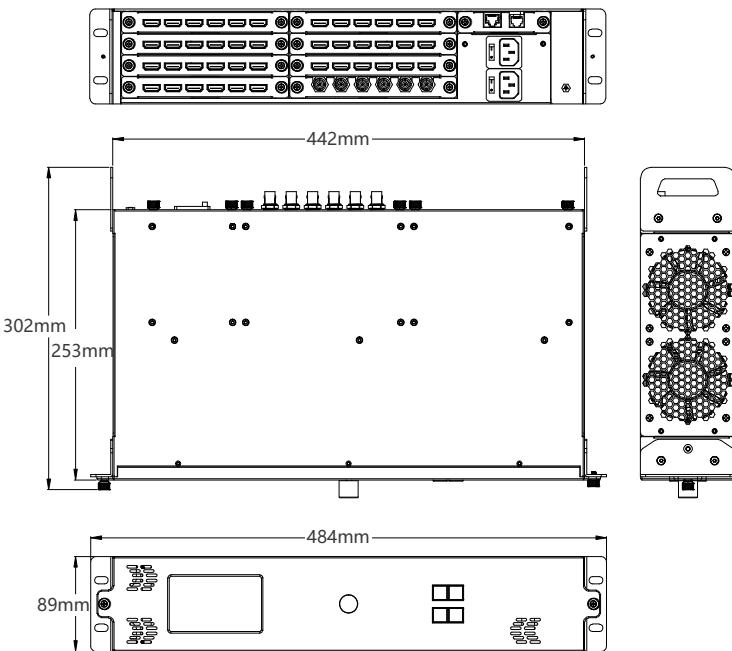

Full plug-in card design, optional input and output board configuration according to project requirements, more flexible and simpler, and supports hot-swappable.

Specification

Model	DX8					
Specification	2U					
Communication Slot	1					
Input Slots	4					
Output Slots	4					
Physical	Input	HDMI 1.3 (6 ×HDMI-A)	SDI (SD/HD/3G) (6 ×BNC)			
	Output	HDMI 1.3 (6 ×HDMI-A)	SDI (SD/HD/3G) (6 ×BNC)			
	Communication	LAN (1 ×RJ45)	RS232 (1 ×RJ11)			
Connectors	Input Resolution	HDMI 1.3 Select from below or configure customized				
		SMPTE	720p@50/60 1080p@25/30/50/60			
		VESA	800×600@60 1024×768@60 1280×720@60 1280×800@60 1280×1024@60 1360×768@60 1366×768@60 1440×900@60 1400×1050@60 1600×1200@60 1680×1050@60 1920×1080@60			
		SDI (SD/HD/3G)	Select from below or configure customized			
		SMPTE	720p@50/60 1080i@50/60 1080p@23.98/29.97/25/30/50/60			
	Output Resolution	HDMI 1.3				
		SMPTE	720p@50/60 1080p@25/30/50/60			
		VESA	800×600@60 1024×768@60 1280×768@60 1280×1024@60 1600×1200@60 1920×1080@60			
		SDI (SD/HD/3G)				
		SMPTE	720p@50/60 1080p@25/30/50/60 1080i@50/60			
Power	Supported Standards	SDI (SD/HD/3G) HDMI 1.3				
	Input Voltage	AC 100V-240V, 50/60Hz (dual PSU)				
Operation	Temperature	0°C~70°C				
	Humidity	15%~85%				
Physical	Net Weight	8kg				
	Packaged Weight	13kg				
	Net Dimension	446mm×370mm×89mm				
	Packaged Dimension	630mmx585mmx250mm
